- Global Network Concept and Benefits

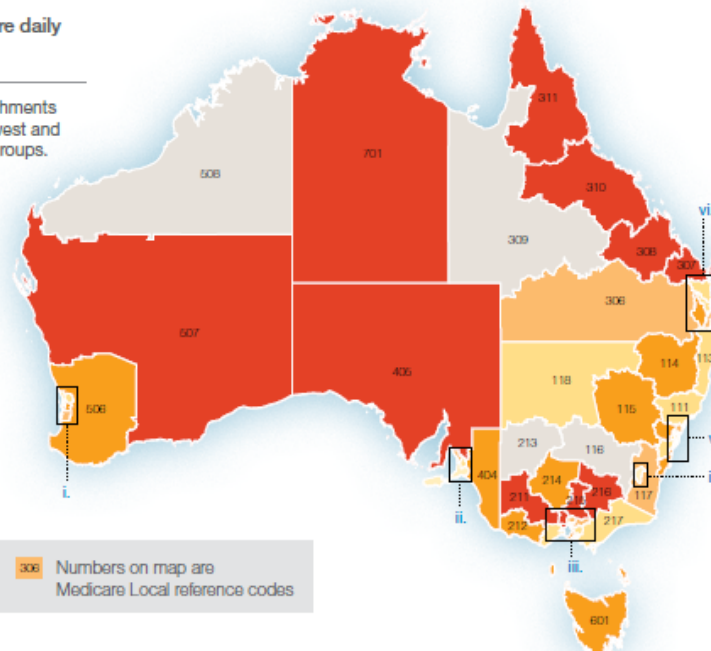

Adults who smoke daily

Year of data: 2011–12

In 2011–12, the percentage of adults who smoked daily varied across Medicare Local catchments, ranging from 6% to 28%.

Percentage of adults who are daily smokers, 2011–12

Results for Medicare Local catchments were ranked from highest to lowest and then split into five equal-sized groups. The range within each of the five groups was as follows:

□ Medicare Local catchment boundary
 ■ Numbers on map are Medicare Local reference codes

i. Perth and surrounding areas

ii. Adelaide and surrounding areas

iii. Melbourne and surrounding areas

iv. Canberra and surrounding areas

Box Hill Hospital surgeon Patrick Pritzwald-Stegmann dies after alleged assault

Updated 28 Jun 2017, 1:30pm

A Melbourne surgeon has died almost a month after being punched in the head in the foyer of Box Hill Hospital, police have said.

Thornbury man Patrick Pritzwald-Stegmann, 41, was allegedly attacked on May 30.

The husband and father of two had spent the last four weeks in a critical condition in The Alfred Hospital, and died overnight.

"Our family is devastated by Patrick's passing," his family said in a statement.

"We are grateful for the compassion and support we have received from friends, colleagues and the broader community over recent weeks.

During this difficult time we ask that we are given

Our work in context

FACTS

- Tobacco consumption is the single most **preventable** cause of death and disability in the world.
- One in every two smokers **will die** from a tobacco-related disease.
- Tobacco use is highly **addictive** and harms every organ in the body.
- Three in every four tobacco users **would like to quit**

Smokes & Ladders

START 1

2: You've given up smoking for 2 days. Already you feel and smell fresher!

3: 3

4: 4

Monitoring
and evaluation

Standard 1: Governance and Commitment

The healthcare organisation has clear and strong leadership to systematically implement a tobacco-free policy.

Standard 2: Communication

The healthcare organisation has a comprehensive communication strategy to support awareness and implementation of the tobacco-free policy and tobacco cessation services.

Standard 3: Education and Training

The healthcare organisation ensures appropriate education and training for clinical and non-clinical staff.

Standard 4: Identification, Diagnosis and Tobacco Cessation Support

The healthcare organisation identifies all tobacco users and provides appropriate care in line with international best practice and national standards.

Standard 5: Tobacco Free Environment

The healthcare organisation has strategies in place to achieve a tobacco-free campus.

Standard 6: Healthy Workplace

The healthcare organisation has human resource management policies and support systems that protect and promote the health of all who work in the organisation.

Standard 7: Community Engagement

The healthcare organisation contributes to and promotes tobacco control/prevention in the local community according to the WHO FCTC and and/or national public health strategy.

Standard 8: Monitoring and Evaluation

The healthcare organisation monitors and evaluates the implementation of all the ENSH-Global standards at regular intervals.

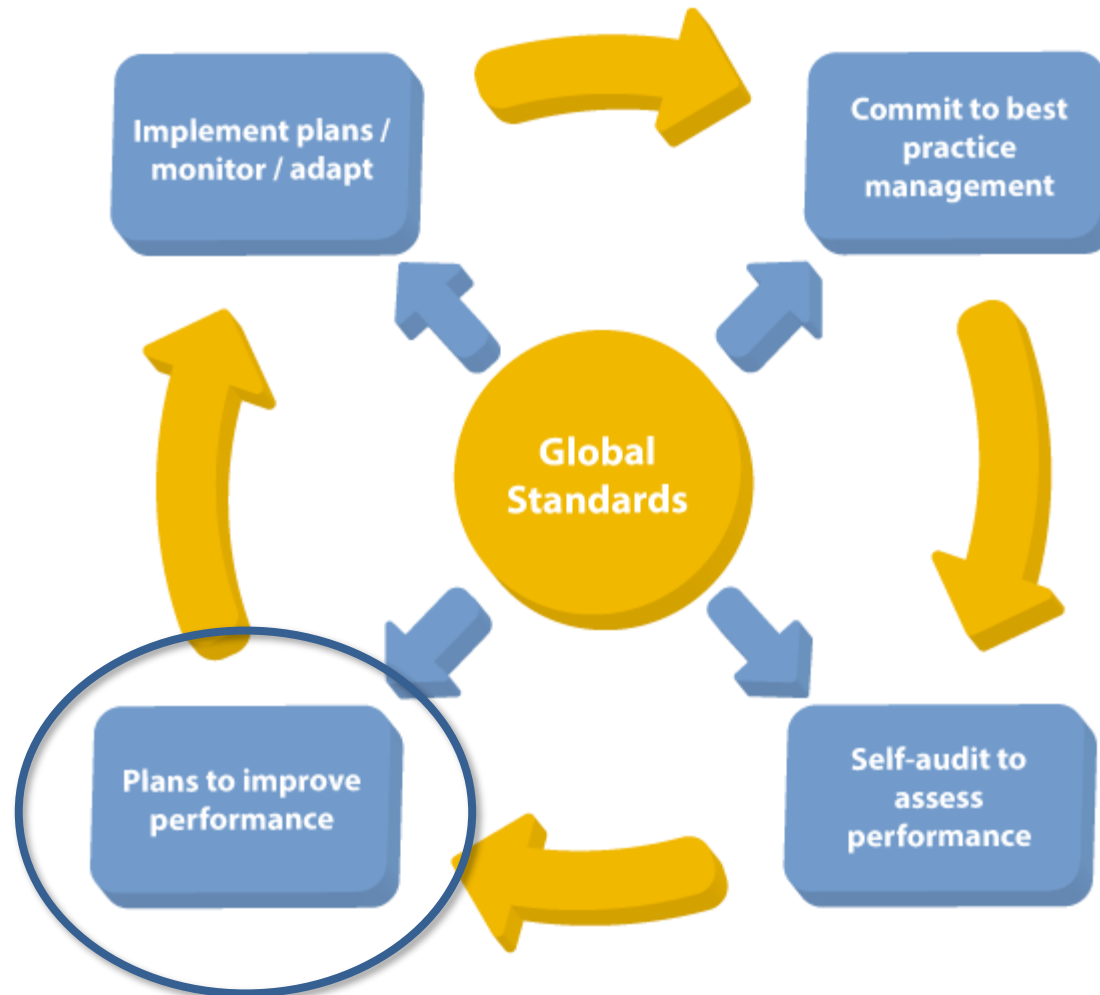

Self Audit

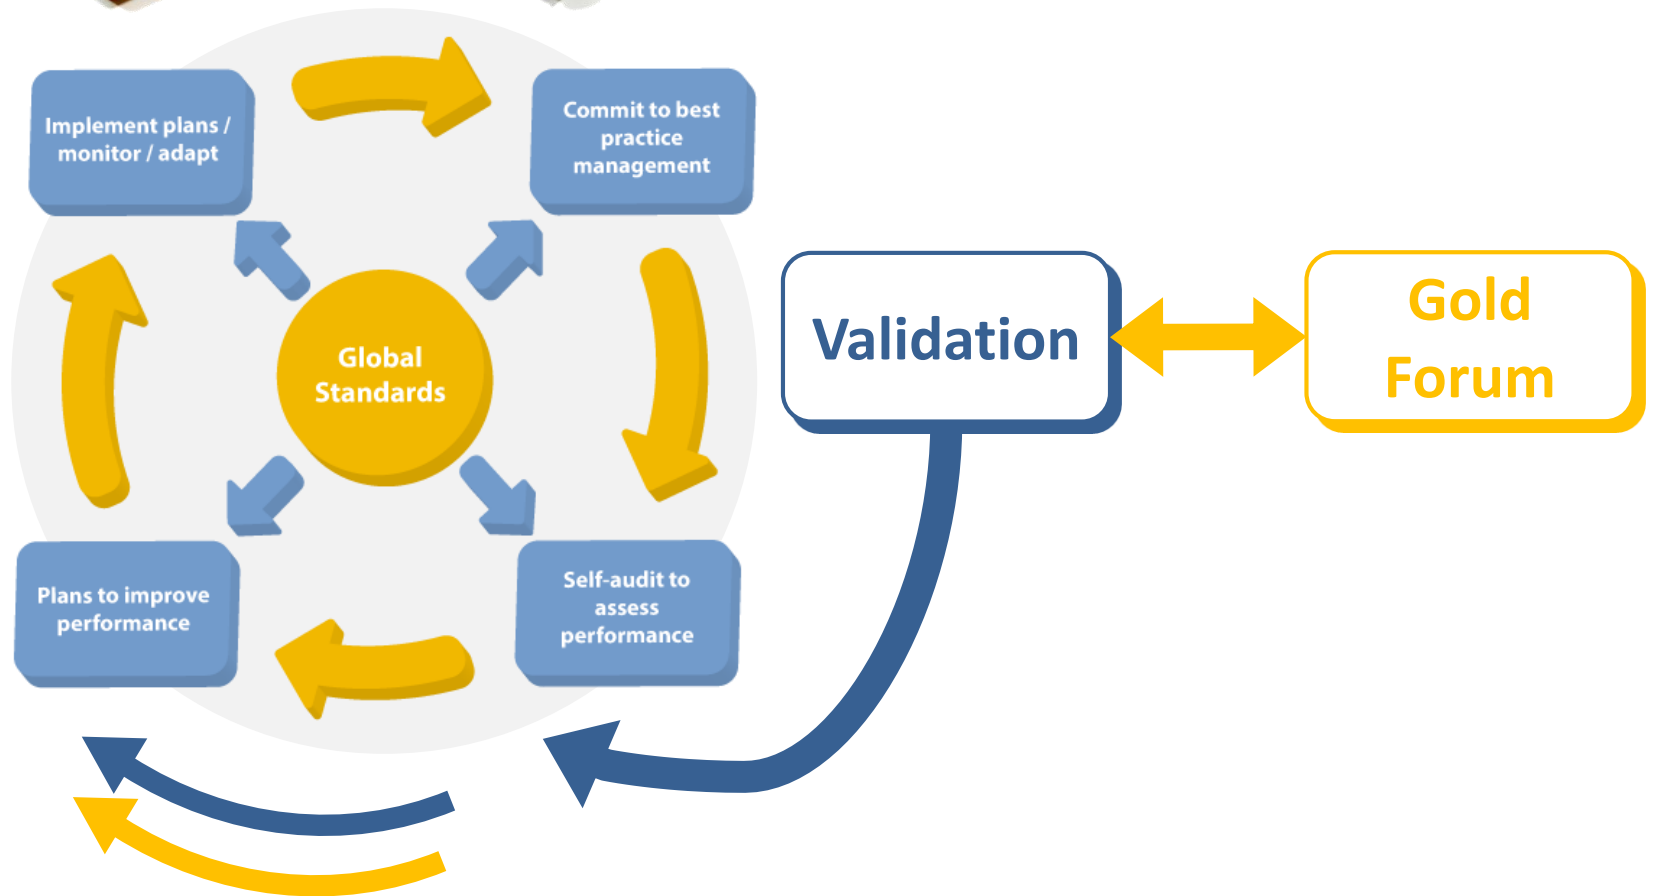

STANDARD 1: Governance and commitment <i>The healthcare organisation has clear and strong leadership to systematically implement a tobacco-free policy</i>		SELF AUDIT 0 = No / not implemented 1 = Less than half implemented 2 = More than half implemented 3 = Yes / Fully implemented				
IMPLEMENTATION CRITERIA		REFLECTION Summary of current situation (Please describe the current situation for each implementation criteria. This will provide a context for your planned actions for the next 12 months)				PRIORITIES Summarise the actions flowing from the audit process for each criteria (These will inform a more detailed planning process)
1.1 The healthcare organisation has clear policy documents towards the implementation of the Global Standards.	1.1.1 Policy documents of the healthcare organisation show commitment to implement all Global Standards.	0	1	2	3	
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Continuous improvement through a systematic approach

Plan for improved performance

Purpose of Gold Forum

- Global recognition
- Sustained improvement
- Sharing of best practice

Process of Gold Forum

Health services participate in a national verification/validation process providing evidence of a high level of implementation including a confirmed audit score of ≥ 126

Health services who achieve the required level of performance are eligible to be nominated for Gold Forum by their national/regional network

Nominated health services apply for Gold Forum through the Global Network

Health services assessed via a Global Network nominated jury

Thank you!

- Maximise opportunities MECC
- Provide evidence based best care
- Sharing and learning from each other
