

Catalan Institute of Oncology

A Gold accreditation renewal case

Laura Antón

Tobacco Control Unit, Catalan Institute of Oncology WHO Collaborating Center For Tobacco Control, Barcelona

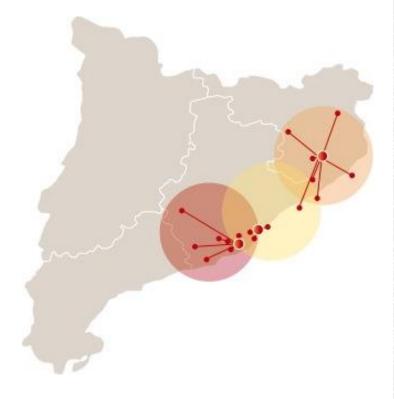

A multi-centre organisation

The Catalan Institute of Oncology is a specialised cancer institution created in 1995 by the Catalan Government's Ministry of Health. It started its activity at the Duran i Reynals Hospital in L'Hospitalet de Llobregat. In 2002 it inaugurated ICO Girona, in 2004 ICO Badalona, and in 2014 ICO Tarragona.

Currently the ICO has four centres that work together with four university hospitals: Bellvitge Hospital, Dr. Josep Trueta Hospital, Germans Trias i Pujol Hospital and Joan XXIII Hospital.

It has its own territorial model. It is a multi-centre organisation that works in a coordinated way with 19 regional hospitals across the territory.

CENTRES SANITARIS SENSE FUM

Guide

de l'hôpital sans tabac

Standard 1 Governance and Commitment

- Catalan Network of Smoke free Hospitals since 1998.
- Resources allocated to the Smoke Free Hospital project.
- Promotion of a healthy lifestyle including tobacco free culture.

Entrevistat sobre cigarretes electròniques, tabac, beneficis de deixar de fumar, i la necessitat d'espais Iliures de fum per @ruben_blas a @lhdigitalh #tVL Hospitalet

Ihdigital.cat/web/digital-h/...

La tele de L'Hospitalet @lhdigitalh ens va venir a veure a l'@ICO_oncologia i l'@AnnaRiccobene i la Dra. @CrisMarMar van explicar com ajudem els pacients a deixar de fumar. El Lorenzo i l'Ester també expliquen la seva experiència!

Indigital.cat/web/digital-h/

Standard 2 Communication

- The tobacco-free communication messages are launched in fresh and engaging way.
- At the community level, we participate in conferences, roundtables, campaigns.
- Our message is spread through communication media (TV, radio, newspapers) and social media (Twitter, Facebook, Instagram).

Standard 2 Communication

- ICO raises awareness during the WNTD and also launch campaigns and collaborations with the community during the No Tobacco Week local initiative.
- ICO organizes several tobacco control webinars at the national and international level, posted on YouTube channel.

E-learning program for improving smoking cessation interventions in Spain

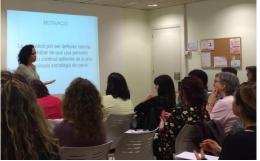

Cofinanciado por el programa Erasmus+ de la Unión Europea

Innovative e-learning educational resource to improve smoking cessation knowledge among healthcare students

Standard 3 Education and training

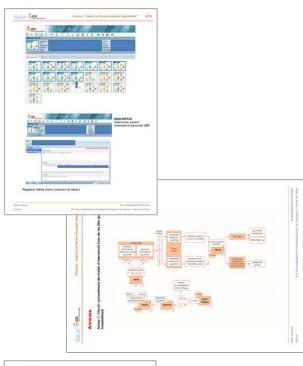

- Specific online training course for ICO health professionals.
- Tobacco control training programme available for all health professionals.
- ICO has received several training grants to develop innovative education.

ATENCIÓ AL PACIENT FUMADOR HOSPITALITZAT

Autor/Coordinador:	Verificadors:	Aprovadors:
Cristina Martinez Martinez	Comité de Qualitat i Raquel Azor	Mª Antonia Serra Barril
		Maica Galan Guzman

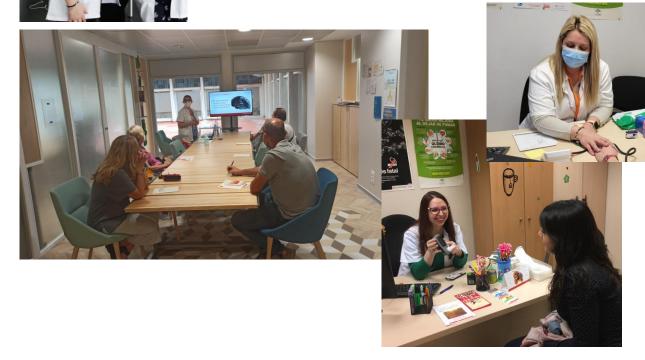

Standard 3 Education and training

- Specific protocols has been implemented: for promoting brief intervention to hospitalized patients, for hospitalized patients and for the intensive intervention.
- Almost the 75% health professionals of ICO has been trained on tobacco control over the last 15 years.
- Specific actions on how to approach smoker patient has been implemented (sessions, protocols, materials...).

Standard 4 Identification, diagnosis and tobacco cessation support

- The clinical protocols include identification of any tobacco product.
- ✓ ICO has a **Cessation Clinic** with two nurses, an adminstrative and a scientific/implementation science coordinator.
- The Cessation Clinic is running since 2003 with approximately 150 new patients each year and 900 follow-up visits per year.
- We are testing a new electronic clinical record to analyze the effectiveness of our activity in real time.

ICO is implementing the campaign Allunyem el tabac (Move tobacco far away)

f G+ P in

Standard 5 Tobacco-free environment

- In May 2021, ICO implemented the Campaign "Allunyem el tabac", promoted by the Catalan Network of Smoke-free Hospitals.
- This campaign has been designed to expand tobacco-free areas beyond the entrances to move away tobacco consumption and reduce the visibility of people smoking.

Standard 5 Tobacco-free environment

- ICO regularly evaluates the **smokefree campus compliance** through staff surveys.
- The switch from paper to electronic survey have been implemented to facilitate the response of the staff and the number of participants.
- ✓ All professionals are aware of this action and they are informed that this is part of the Smoke free project of the hospital.

L'ICO convoca el concurs 'Debxaho i guanya' per ajudar a tots els treballadors/es de la institució i també de les empreses subcontractades o que hi prester serveis i que vulguin deixar de fumar. Amb aquesta iniciativa no més es premiarà l'esforç a les persones que vulguin deixar de

fumar sinó també al company/a que doni suport durant el procés.

Tothom que hi vulgui participar haurà de deixar de fumar entre el 3 de novembre de 2015 a l'11 de gener de 2016 i restar abstinent, com a mínim, fins el 20 de maig del 2016

M'agrada Comentari ···

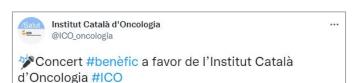

Standard 6Healthy workplace

- All **hiring documents** by clinical and non-clinical staff (from ICO and outsourced services) include a statement about the obligation to follow ICO's tobacco control policies and their role in promoting the tobacco-free culture actively.
- ✓ The smoking cessation programme for staff is available and informed through communication channels on a regular basis .

L'Hotel Hyatt Regency Barcelona Tower, amb el patrocini de @Borges_es, ha organitzat aquest esdeveniment #solidari per collaborar en la lluita contra el #càncer.

T'ho perdràs? feverup.com/m/120618

Un plaer escoltar en Jordi Vila, metge adjunt d'Hematologia Clínica de l'#ICO Girona, tocant el piano del vestíbul del @htrueta, gràcies a la iniciativa de @mariacanals_bcn

Quin goig! @salutcat

Standard 6 Healthy workplace

- An implemented workplace programme promotes the **health of all working** within the organization.
- Regular activities are scheduled to promote staff's healthy way of life: family sessions, music events, healthy information, etc.

Standard 7 Community engagement

- The Catalan Network for Smoke free Hospitals is coordinated by ICO since its begginers.
- We collaborate with Spanish organizations working for Tobacco control strategies and policy implementation.
- **ICO-WHO Symposia** are conducted every two years and are focused on topics of global interest.
- On a local level, we collaborate with **local companies** to promote a healthy lifestyle.
